## Introduction

GOE is a training event organized by Otanic service (RC:4398970) aimed to empower Christian coppers with essential information and exposure needed to soar like eagles. Gathering of eagles is intended to train coppers in the following areas.

- I.     Etiquettes
- II.    Time management
- III.   Financial management
- IV.    Goal settings

Gathering of eagles began in 2017 in Port Harcourt, River State, Nigeria. The first speaker of the events is Fela Durotoye, the presidential candidate of Alliance for a New Nigeria (ANN).

It is no longer a news that our society has created more competition for young Nigerians and unemployment is on the increase because of failure in policies and graduates have been unemployable due to wide difference in educational curriculum and behaviors expected of employers of labour.

All these and many more have given us the impetus to organize the training event, as a platform to prepare and equip our Christian coppers for the challenges ahead and help them make better choices that can only invigorate and enhance their chances, as well as maximize their stakes in our nation and world's future.
